Our white water river rafting is the best! Both as a team build as well as just a fun-filled day out in nature. It's an awesome adventure, but very very safe at the same time, because we use the big 6-man rafts with a professional guide in each raft to steer it.

The Ash river is South Africa's cleanest constant flowing river in the pristine surroundings of the Golden Gate area en route from the Katze Dam in Lesotho. Definitely the best white water rafting SA has to offer with grade II - IV rapids and quieter sections in between. We use the big 6-man rafts with a qualified guide in the raft who steers the raft.

Outrageous Adventures can also proudly say that they were the first white water rafting company with the expertise and experience to explore and run the bottom section of the river which is part of our full-day trip. We cover a distance of 19km on our full-day trip.

Our guides are all trained in white water river rafting and white water rescue and have done the necessary courses and are all experienced. We also adhere to the Codes of Safety and Ethics as prescribed by the APA.

The owner of Outrageous Adventures, Kallie Zwahlen, has over 20 years paddling experience. His passion for rivers and paddling is the driving force behind the business and safety is always his first priority.

We get you wet!

And we make you smile !!
