3-Day Mkomazi River Adventure - Underberg, KwaZulu-Natal.

We meet at [Hillside Lodge](#), just outside the scenic little town of Bulwer (near the well-known Himeville and Underberg), where we'll overnight for the first evening.

Supper is still for your own account, as a lot of people only arrive late, and have usually already eaten on the road.

We camp in tents (which we'll supply) at [Hillside Lodge](#), but the house is available at extra cost for those that want to sleep more comfortable. The camping fee, however, is included in the whole rafting package!

The option also exists to not camp at all next to the river the other nights, but to return to the lodge after every day's rafting. Enquire about the extra cost. It is well worth the extra comfort! ☺

We supply breakfast the next morning, and then also all meals on the river.

Day 1 - After breakfast, we'll transport you to the Mkomazi river, where we will do a safety-brief, fit life-jackets and hit the water! We'll use either 2-man inflatables called crocs or big 6-man rafts, depending on rainfall and water-levels in the river.

The area is quite remote, the scenery is stunning and the river very exciting (grade 3 and 4 on a rising scale of difficulty from 1 to 6). We paddle everything we need with us, tents, food etc. and camp next to the river. There is not much space on the rafts, therefore we can only take the bare necessities, no room for luxuries. It is an awesome experience for those who do not mind roughing it a little.

But as mentioned before, the option also exists to return to [Hillside Lodge](#) every evening and sleep in a proper bed every night, for those who do not want to give up too many comforts. (Enquire about the extra cost.)

We will have lunch along the way on the banks of the river. Then after lunch it's more paddling and shooting rapids until we find a suitable camping spot for the night. Then everyone helps with pitching tents, collecting firewood, preparing meals and getting ourselves comfortable for the night.

Day 2 on the river. Our first morning on the river. No need to rush. Now we are on river time! We get up when we feel like it, have breakfast when we feel like it, and start paddling again when we feel like it! And then, after lunch, it's the same "making camp" routine from the previous day. Now we have some practice behind us and pitching tents, etc. is done in a jiffy!

Day 3 on the river. After breakfast it is pack up and straight onto the river again. We will finish our raft trip early afternoon - depending on the water levels. Enjoy your last river lunch before we transport you back to Hillside Lodge and your vehicles. Now it is up to you whether you want to head home immediately, or spend another night at the lodge (at your own account) and only head home again after a good night's rest.

Costs:

3-day white water river rafting trip:
R3 360 per person.

Included are all meals on the river. We will also supply all tents and dry-barrels to keep personal belongings dry. You only need to bring your own personal belongings - a kit list will be supplied.

Accommodation: camping at [Hillside Lodge](#) just outside Bulwer the night before the trip is included (but not supper that first evening). Should you not want to camp, the option is there to rent the house at the lodge, which then will be for your own account.

The scenery is absolutely stunning on the Mkomazi River.

And the rapids exciting !!
